

Clinical Practice Guideline

Diabetes Care

Effective 10/22/09, approved by the CHP Peer Review Committee 10/22/09

Community Health Partnership, Inc. supports the use of evidence-based guidance for care based on clinical evidence

Community Health Partnership has adopted the *Wisconsin Diabetes Mellitus Essential Care Guidelines* as updated 2008. This guideline was developed by the Wisconsin Diabetes Advisory Group. Summary report of the guideline can be found at:

<http://dhs.wisconsin.gov/health/diabetes/guidelines.htm#prof>

These guidelines are part of the CHP Quality Improvement Program and may be used in full, part or edited form to support CHP member outcomes and care of our members.
